

PLASTICS RECYCLING SOLUTIONS

SHREDDERS

GRANULATORS

DEDUSTING

Pre-chopping Recycled Plastics

- Efficient high capacity shredding
- Wear protection
- From 50-200 HP

Heavy Duty Granulation

- Easy access and maintenance
- Uses patented Cross Scissor Cut
- Durable & rugged construction

High Capacity Dedusting Systems

- Fine dust removal
- Clean up to 10,000 lbs/hr
- Accurate & simple to operate

Industrial Grade Shredding

- Durable rotor with easy to replace knife tips
- Simple operation
- Low maintenance required

Numerous Granulation Options

- 5 – 600 Horsepower available
- Process up to 10,000 lbs/hour
- Minimal fines generated

Produce High Quality Materials

- Efficient & Economic operations
- Remove dust, paper & other contaminants
- Accommodates a wide range of granulated materials
